Dear Committee Members, (Ref. Civil Society)

This letter concerns the agenda of the Committee of Government Representatives on the Participation of Civil Society.

My concern is about trade and investment- that policies develop that would realize human rights, the rights of labor over capital, the guaranteeing of citizens' full participation and well-being, the promotion of justice among all the partner nations and care for the earth's limited resources.

Active citizen participation can ensure that the Free Trade Areas of the Americas creates just and sustainable societies among the small as well as the large economies of the region.

Thank you for considering these concerns.

Sincerely

Sister Lucille Borengasser, OSB
